EXPERIENCE

Google Summer of Code • Remote

Internship • Python Developer

Jun' 22 – Nov 22

- Developed several features and modules that enable Hindi Date and Time support in the **DateParser module**.
- Developed a feature for the **support of fortnight and century** and also added Hindi support for the following language feature.
- Proposed new **clean architecture and docs improvement** for the Python codebase that significantly reduced boilerplate and code complexity.

Namaste Dev • New Delhi, IN

Internship • Community Manager

Oct' 21 – Jan' 23

- Managing the community and ensuring it's a safe and inclusive space for everyone.
- Led several teams and ensured coordination.
- Ensure the circulation of content on the discord server and in communities
- Manage different shows led by the Community Events Team.

Quizizz • Gurgaon, IN

Internship • Full Stack Developer

Jun' 21 – Feb' 22

- Launched an **AI-powered** exams-taking system and grading system for kids.
- Developed a backend service that **automates** the grading system in K-12 schools in the United States which helps the Institute to better **analyze** the student learning patterns and their strengths and weaknesses.
- Developed an **Internal container pipeline** which helps other developers to set up the project easily on their system and set up gitpod configurations for running the projects on gitpod. Which helps Developers to **save 10x time** on Project Setup.
